

BATTERY RX

Wireless Battery Health & Fleet Monitoring System

Application
Battery Health Monitoring

Category
FBattery Management

KEY FEATURES

- **24/7 Battery Monitoring:** Continuously monitors state of charge, water level, voltage, current, and temperature to provide real-time battery health visibility.
- **Smart Fleet Connectivity:** Connects batteries and chargers to create a smart fleet operation, with optional PosiLink connectivity for remote data access and alerts.
- **Warranty & Life Tracking:** Stores battery history for the life of the battery, helping support warranty compliance, battery rotation, and estimated life expectancy.
- **Reduced Downtime & Operating Costs:** Detects issues early to minimize unexpected downtime, reduce battery replacements, and lower overall fleet costs.
- **Fast, Universal Installation:** Installs in approximately 20 minutes and is compatible with 24V to 96V batteries and all PosiCharge products.

SPECIFICATIONS

- Compatible with 24V to 96V batteries
- Dimensions: 7.63 in L x 2.25 in W x 1.25 in D
- Current measurement range: +/- 1000 amps
- Temperature sensor operating range: -20°F to 165°F
- Includes water level detection
- Designed to withstand acid immersion and high-pressure battery wash environments
- Compatible with BMID, non-BMID, and CAN systems
- Optional cellular connectivity available
